

Features: Bookings & Resource Management

General Bookings	
Personal Training	Book an individual trainer or buy blocks of sessions with full countdown and expiry date control.
Racquets	Book any kind of racquets court. Book a coach and equipment at the same time.
Spa/Beauty Therapy	Book a treatment, therapist and room in the same process.
Online Bookings	Book online using WebAccess.
Non-member Bookings	Connect bookings to members as well as accept booking and payment from non-members.
Resource Management	Manage availability schedules for your staff, equipment and locations to eliminate double bookings.
Childcare	Setup supervision rules for different age groups.
SMS Booking Confirmation	Confirm bookings by SMS text message.
Booking Filters	Quickly make a booking by filtering to show 'next week', 'tomorrow' or 'first available' etc.
Powerful Rules	Setup rules for days to book ahead, time of day for bookings, variable pricing, cancellation policies and much more.
Reports and Business Intelligence	Run web-based reports to show booking activity, resource utilisation levels and top performers. Great for deciding which products should be increased or cut back.
Smart Area Management	Split multi-use locations such as sports hall and swimming pool into areas. LeisurePoint knows to adjust availability of all activities if the whole area is booked.
Area View	Easily see what's happening at LeisurePoint displays a booking view based on the bookings in all your areas and activities.
Front Desk Integration	View and make bookings in the Front Desk Software. Collect payments as members check in.
Classes and Courses	
Create Recurring Sessions	Setup the duration and capacities for each class/course and LeisurePoint keeps your timetable up to date.
Waiting Lists	For popular classes and courses add participants to the waiting list and display their position in the list as it changes.
Class Registers and Tickets	Generate a class/course register with photos and collect tickets to verify attendance.
Live Class Timetable	Display a real time view of your class timetable on your website showing current availability. Click a class to make a booking.
Transfer to Another Course	Start a new course and automatically transfer selected records to the new course e.g. if they passed the previous course.
